

Business Intelligence

Online Graduate Certificate

Discover your State.

Business intelligence can change the way you work. Our nine-credit Business Intelligence Certificate provides students an insight on how to harness business intelligence that supports better decision making. This certificate focuses on how BI uses technologies, processes, and application to gather, analyze, and disseminate information.

Courses, offered in a convenient online format, are taught by College of Business Department of Computer Information Systems professors, and are designed to provide industry-specific knowledge in reporting, data mining, business performance management, benchmarking, and predictive and prescriptive analytics.

Curriculum. (9 Credits)

Business Intelligence, CIS570

Applied Data Mining and Analytics in Business, CIS575

Business Data Visualization, CIS576 **or** Business Database Systems, CIS655
